

An extraordinary species called horse?

(Where it comes to veterinary medicinal treatment ... No!)

Rens van Dobbenburgh

FEEVA, Copenhagen
3 November 2011

CHP

- 1990-2003 Large animal practitioner
- 1996-2002 Association Large Animal Practitioners. President
- 1999-2002 Royal Dutch Veterinary Association (KNMvD). Board member
- 2004- UEVP/FVE delegate/board member
- 2004- AUV Co-operative / AUV Group. CEO

ScanimalHealth

INSTRUVET

Val d'Hony Verdifarm

- Horse prices are falling down
- Number of foals is decreasing
- Consultations going down
- New vets do not want to work in equine
- The future for the horse veterinarian is gloomy

And then

- Role of the horse taken over by cars and trucks
- World War is not over soon

It is 1916 and the article today is a reprint!

Loomans dissertation

- Cascade (correct?)
- Of label (correct?)
- Not authorised at all
- Not registered at all

This is called illegal.

Better in other member states? Maybe not!

The horse as exemption?

- Companion / food producing
- Minor species

The obscure species?

- Fixed margin dispensing VMP vet to client
- Vetstat
- Maintaining and sanctioning

- Media
- Parliament discusses vet use am
- One issue party for animal rights in NP
- Man in the street knows about MRSA / ESBL

Legislation to be developed

- 20%, resp. 50% decrease am ultimo 2011/2013
- Only diagnosed diseased animals may be treated. Prophylactic use am is prohibited
- Bacteria isolated and choice of am after susceptibility testing
- Formulary

Monitoring

- VetCIS digital database
- Benchmarking
- Veterinary Pharmaceuticals Authority
- Guidelines
- Maintaining / sanctioning

- CVO's
- EP adoption resolution on AMR
- Antibiotics Awareness Day 18 November.
DG Sanco will announce strategy
- Cascade review
- Denmark chairs EU 2nd half 2012

What is FVE doing?

- Medicine Working Group
- Lobbying EP (Agri Committee)
- Lobbying EC
- Position papers

FVE successes

(in collaboration with FEEVA)

- Extended list essential products horses
- Food producing or companion animal
- Cascade
- Blocking separation prescribing and selling in the one hand of the vet (for the moment)
- 1-1-1 concept
- Extended data protection period

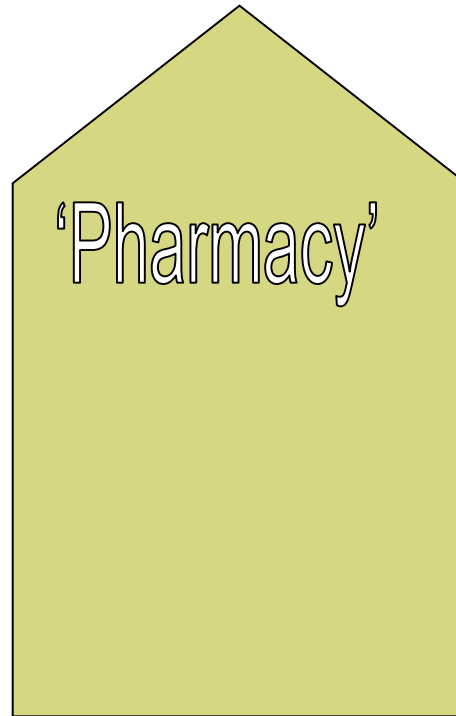

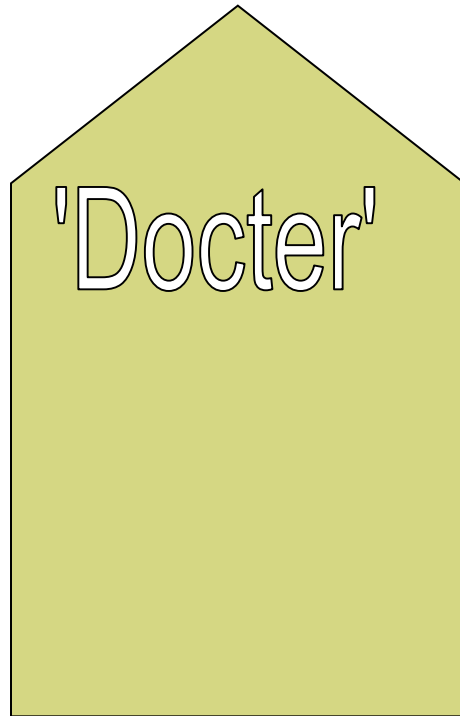

- Vet examines / diagnoses / prescribes / (dispenses (sells))
- Monitoring via digital database
- Guidelines (incl. formularies)

- And the horses will be included!

The two economic pillars of our practices

Figures and statistics

- Financial transparency
- Cost price calculation
- Working hours = billing hours
- Take care. As veterinary entrepreneurs we are subject to competition laws!

But also

Figures and statistics

- Comparable operating procedures regarding the use of VMP
- Which countries use formularies?
-
